

## *It's Time For Spring Wines!*

Home / Wine / It's Time For Spring Wines!

Spring is in the air, Earth Day is coming up this month, and you can see the flowers definitely want to bloom soon! I love spring because the weather is a bit warmer but not too hot yet and it's such a lovely blossoming time of year. Spring is a time of change, and I love changing up my wines a bit too. In spring my wine choices become a bit more chilled, lighter in body, and I find myself pairing these with lighter dishes as well.

I have compiled a list of 16 spring wines you will want to have this season. Sure, you can drink all these wines year round, but why not use Spring as an excuse to try them all!
