## Jumpstart Your Spring With These Four Wines

*Whether you are celebrating Easter, or simply transitioning to warmer temperatures and longer days, here are four perfect wines for you to discover.*

I just realized that I made it through the entire winter without once using my ice scraper. Saints be praised! It was quite a different story when I lived up north, where the football teams are much better, but the weather is decidedly colder. Spring is nature's way of saying it's time to party – and we have some great suggestions for you.

### **J. de Villebois 2020 Sauvignon Blanc, Touraine**

Loire Valley has a brilliant range of wines, including those made from Chenin Blanc, Cabernet Franc, and Pinot Noir. The banks of the Cher River (a tributary of the Loire) have flinty soil, just perfect for Sauvignon Blanc like this one. This cuvée is the flagship of J. de Villebois. Pale yellow in the glass, it has fresh aromas of acacia and ripe fruit.

The flavors are vibrant with lemon drop and apple notes. Spritely minerality binds it all together. Pair this with shellfish or goat cheese. SRP \$17.99.
